From: Dr. Mohammad Khalid Sediq
Director National Tuberculosis Control Program

Subject: Appreciation letter of always assisting National Tuberculosis Control Program of Afghanistan

Dear Sir/ Madam,

As it is clear to all that, Afghanistan is a post conflicted country, and during three decades of internal war all its infrastructures destroyed, resulting in spread of tuberculosis as strong threads in public health program in this country. National Tuberculosis Control Program has been fighting against with this life threatening disease by support of many National and International partners.

By availing to this opportunity, I would like to express sincere appreciation to the Kuwait Patient Helping Fund Societies for their great assistance to provide pediatric anti-tuberculosis medicine which are crucial for implementing tuberculosis control program. Also, we are looking forward to your continuous support.

With Best regards
