Leadership and coordination

- Set up an intersectoral coordination mechanism for information sharing, periodic risk assessment and managing the national and international operational response should cases occur.
 - Provide regular advice to the travellers going to Ebola-affected countries on effective public health measures for limiting exposure.

Screening at points of entry as required under the International Health Regulations (IHR 2005)

- Increase awareness of points of entry officials on the risk of importation of EVD case.
- Reinforce the team managing the screening of arriving passengers at the points of entry by deploying additional manpower.
- Ensure that the points of entry officials are appropriately trained for assessment, screening and detection of any suspected case with EVD.
- Ensure availability of measures for isolation of suspected case (possibly in a separate isolation/quarantine space) for investigation and management.

Ensure there is effective coordination for information sharing and reporting between the designated points of entry officials and the Ministry of Health.
