that aims to support the generation of evidence from local research for the <u>call for applications</u> 15 October 2020— 11 research projects have been awarded grants following a prevention and control of tropical diseases in the countries of the Eastern Mediterranean Region.

The Small Grants Scheme is a joint initiative of TDR and WHO regional offices, which aims to strengthen the research capacity of individuals and institutions in countries. These grants will support implementation/operational research on neglected tropical diseases (NTDs), malaria and tuberculosis.

The selected proposals are:

## Neglected tropical diseases

Project title Institution Country s, safety, cost-effectiveness, and scarring outcoRugiofnalthineousolwishoofaMinaisityeofthiealtha-Mehr@hocheesani Regional Hospital – Dhar Al Mehraz, Fez Morocco sodium stibogluconate interlesional therapy for skin lesions in cutaneous leishmaniasis in Pa**Nistiun**al University of Medical Sciences, Rawalpindi Pakistan Active search of visceral leishmaniasis (VL) endemic focuses East Africa University Somalia visceral leishmaniasis (VL) among seasonal migrant and resident agricultural **institute in Gallabui**t Diseases, University of Khartoum, Khartoum Sudar Malaria Project title Country n Sudan Investigating the holds of the massive introduced invasive Akinstitutal affile network Diseases, University of Khartoum, Khartoum Sudan

alaria Case Management: Aosumweniam Magjirhysiriah Piub Sahkaalah Departprivat d'hoojhtalf, Medicine and Health Sciences, Aden University, Aden

laria among pregnant women, Elfaitih Eln**5acuItimif,HilbiObainkKity;NomineKiard&fahtKithin;Yarditu** of Kordofan, El-Obeid, North Kordofan State

Tuberculosis

Sudan

Yemen
