

WHO responds to health needs of populations fleeing conflict in Al-Mokha City in Taizz governorate, Yemen

Sana'a, 12 February 2017 — As violent conflict continues in Al-Mokha City in Taizz governorate, Yemen, more than more than 8000 internally displaced persons have fled to several districts of Al-Hudaydah governorate. WHO teams in the governorate are providing trauma care and primary health care services to newly displaced persons, and delivering medicines and supplies to health facilities.
