

The health promotion and education unit will conduct the second module of Prolead jointly with the WHO Regional office of the western pacific on 8-11 October 2012 in Bangkok, Thailand. The training programme seeks to strengthen infrastructure and financing for health promotion. As part of the project five GCC countries have developed a project during module and will present progress at Module 2. The didactic sessions in module 2 will include multisectoral action for health, moving from planning to implementation, advocacy and partnership building. The module will also including round table with CEOs of health promotion foundation and field visit to Thai health promotion foundation.
