

On Thursday, 21 July 2022, the WHO Representative to Tunisia, Dr Ibrahim El-Ziq, visited the WHO Collaborating Centre for the management of cutaneous leishmaniasis, located in the Dermatology Department of La Rabta hospital. He spoke with the Director, Professor Mourad Mokni, about opportunities to strengthen the Centre's activities, especially national and international training. During this visit, Dr El-Ziq handed over a donation of equipment for the treatment of cutaneous leishmaniasis, which will be used for the treatment of patients and the training of both Tunisian doctors and those from other countries.
