

[Stories from the field: sharing successful strategies from the Eastern Mediterranean Region in mitigating noncommunicable diseases and mental health disorders during the COVID-19 pandemic and beyond](#)

Publication date: 2023

This publication concentrates on unpublished accounts of what Eastern Mediterranean Region countries have done to address noncommunicable diseases and mental health issues, both before and during the COVID-19 pandemic. The aim is not to give a complete picture of each country's overall strategy, but to share knowledge and experience with other countries around the world as we confront the global challenges of mental health and NCDs.
