In the WHO Eastern Mediterranean Region, influenza activity continue to decrease in the month of July in many countries reporting data to FluNet and EMFLU namely, Afghanistan, Bahrain, Egypt, Iran (Islamic Republic of), Iraq, Jordan, Lebanon, Morocco, occupied Palestinian territory, Pakistan, Qatar and Saudi Arabia.

## Fig. 1. Influenza geographic spread in Eastern Mediterranean Region, July 2018 Influenza activity by subtype

- In July 2018, no new cases of human influenza A(H5N1) were reported in Egypt.

- In the northern Africa influenza transmission zone, Egypt reported sporadic co-circulation of A(H1N1)pdm09 and A(H3) viruses, while Morocco reported no activity.

- In the western Asia influenza transmission zone, Qatar reported co-circulation of all seasonal influenza viruses with predominance of A(H1N1)pdm09, while in Iraq A(H1N1)pdm09 was only detected. Bahrain, Jordan, Lebanon and oPt reported no activity.

- In south Asia transmission zone, Afghanistan, Iran (Islamic Republic of) and Pakistan reported no activity.
