## HIGHLIGHTS and USEFULL LINKS

### MOH

- There are currently 62 #COVID19 cases in a critical condition, and 11 cases receiving treatment. 1475 are stable out of a total of 1537 active cases
- The National Medical Taskforce for Combatting the Coronavirus (COVID-19) announces the booster dose interval has been reduced to one month after the second dose for high-risk individuals
- Recording a rate of 100% discharge from the hospital and 0% side effects. "Sotrovimab" is a safe treatment characterized by its high efficiency
- Call for elderly to take the initiative to take the booster dose for their own safety.. Dr. Al-Hajri: 80% of the total eligible population in the Kingdom of Bahrain have taken two doses of the anti-Coronavirus vaccination, equivalent to 67% of the total population
- The Minister of Health welcomes Dr. Tasneem Atatreh on the first day of officially assuming her duties as the first permanent Representative of the organization for the Eastern Mediterranean Region in the Kingdom

### WHO

#### COVID-19 Vaccines and Vaccine Safety

- Ethical framework for WHO's work in the ACT-Accelerator (1 July): [https://www.who.int/publications/i/item/WHO-2019-nCoV-ACT-Accelerator-Ethical\\_framework-2021.1](https://www.who.int/publications/i/item/WHO-2019-nCoV-ACT-Accelerator-Ethical_framework-2021.1)
- Sentinel surveillance of Adverse Events of Special Interest (AESIs) after vaccination with COVID-19 Vaccines (1 July): <https://apps.who.int/iris/handle/10665/342194>
- Cohort Event Monitoring (CEM) for Safety Signal Detection after vaccination with COVID 19 Vaccine (Observational Study Protocol Template) (1 July) : <https://www.who.int/publications/i/item/protocol-template-cem-covid-19-vaccines>
- **International Travel:** Implementing a risk-based approach to international travel (Policy Brief + Technical Considerations) (2 July): <https://apps.who.int/iris/handle/10665/342235>
- **Essential Health Services:** Strengthening real-time monitoring of health services in the context of the COVID-19 (Implementation Guidance for Assessments of Frontline Service Readiness) (1 July): [https://www.who.int/publications/i/item/WHO-2019-nCoV-HCF\\_assessment-Frontline\\_services-2021.1](https://www.who.int/publications/i/item/WHO-2019-nCoV-HCF_assessment-Frontline_services-2021.1)

**IPC:** Considerations for quarantine of contacts of COVID-19 Cases (Interim Guidance) (25 June) : <https://www.who.int/publications/i/item/WHO-2019-nCoV-IHR-Quarantine-2021.1>

#### Lab

- Recommendations for national SARS-CoV-2 testing strategies and diagnostic capacities (25 June) (Interim Guidance): <https://www.who.int/publications/i/item/WHO-2019-nCoV-lab-testing-2021.1-eng>

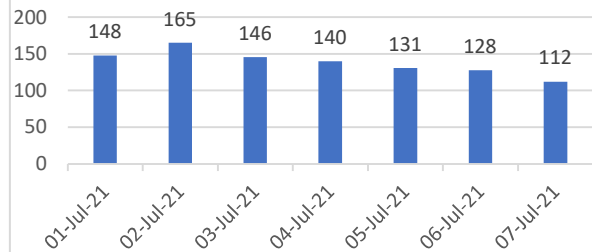

#### Surveillance

- Indicator framework to evaluate the public health effectiveness of digital proximity tracing solutions (25 June): <https://apps.who.int/iris/handle/10665/341818>
- RCCE
- Joint (WHO-UNICEF-IFRC-GOARN) toolbox for empowering families to manage risks (18 June) : <https://www.who.int/publications/m/item/managing-family-risk-a-facilitator-s-toolbox-for-empowering-families-to-manage-risks-during-covid-19>
- Joint (WHO-UNICEF-IFRC-GOARN) toolbox for managing health and happiness (18 June): <https://www.who.int/publications/m/item/a-family-toolbox-for-managing-health-and-happiness-during-covid-19>

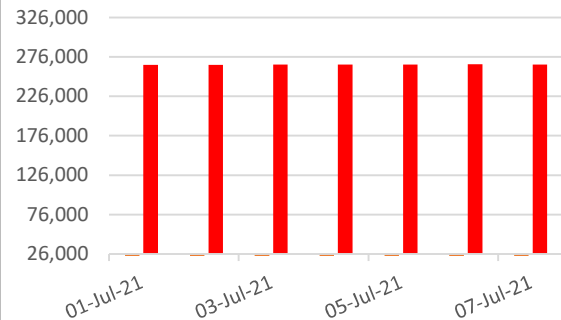

Epi-Win Slide Sets: - 61 on how to care for a person with COVID-19 infection at home, - on SARS-CoV-2 variant nomenclature, - 59 on COVID-19 therapeutics, - 58 on the role of health workers in the uptake of COVID-19 vaccines

**Public Health and Social Measures:** Considerations for implementing and adjusting public health and social measures in the context of COVID-19 (Interim Guidance) (14 June): <https://www.who.int/publications/i/item/considerations-in-adjusting-public-health-and-social-measures-in-the-context-of-covid-19-interim-guidance>
