### HIGHLIGHTS

- 2 mortalities: 57 and 64 years-old male citizens.
- The National Taskforce for Combating the Coronavirus: ready to handle 10,000 cases in one day.
- 4,735 violations of not wearing the face mask in public places were recorded since the inception of the decision.
- Health Minister participated in the 3rd extraordinary meeting of health ministers in GCC states to discuss developments of the coronavirus pandemic.
- WHO welcomes initial results on dexamethasone which reduces mortality only among seriously ill patients with no benefits observed in patients with milder disease (see link below).
- WHO clarifies comments made earlier regarding COVID-19 transmission: transmission is known to occur by symptomatic cases and presymptomatic cases (who later develop symptoms). More data is still needed about transmission via asymptomatic cases (who never develop symptoms). See link below.
