

**Table 2 Severity of lesions in relation to the type of lesion**

<b>Type of valvular involvement and no. of patients</b>	<b>No. of severe cases (<math>n = 51</math>)</b>	<b>% of severity in relation to type of valve involved</b>
Mitral stenosis ( $n = 9$ )	9	100
Mitral regurgitation ( $n = 36$ )	9	25
Mitral regurgitation + aortic regurgitation ( $n = 23$ )	23	100
Multiple lesions ( $n = 10$ )	10	100
