

Table 1 Median levels of maternal-specific IgG antibodies and seropositive rate against measles, mumps, and rubella among infants in relation to gestational age ($n = 566$)

Virus	Median maternal-specific IgG level (IU/mL)			% of infants seropositive		
	Preterm infants	Full-term infants	<i>P</i>-value	Preterm infants	Full-term infants	<i>P</i>-value
Measles	0.0	1.7	< 0.001	0.0	70.0	< 0.001
Mumps	24.0	113.5	0.002	0.0	82.0	< 0.001
Rubella	2.3	23.1	0.003	5.9	59.2	< 0.001
