Table 1 Prevalence of stunting and the mean height distribution of the sample of students

| Stunting | No. | $\%$ | Cumulative \% | Mean height <br> $(\mathrm{cm})$ | SD |
| :--- | ---: | :---: | :---: | :---: | ---: |
| $<-2$ SD height | 987 | 18.7 | 18.7 | 126.2 | 8.1 |
| -1 to -2 SD height | 1828 | 34.6 | 53.3 | 132.3 | 8.6 |
| Normal height | 2471 | 46.7 | 100.0 | 140.2 | 10.6 |
| Total | 5286 | 100.0 |  | 134.9 | 11.0 |

$\mathrm{F}=868.3$; $\mathrm{P}<0.001$.
SD $=$ standard deviation.
