

Table 2 Determinants of ever use of ecstasy among college students in Astara city

Variable	Odds ratio (95% CI)	P-value
Ever used other drugs		
No	1	
Yes	30.7 (13.2–71.4)	< 0.001
Ever used alcohol		
No	1	
Yes	8.9 (3.7–21.1)	0.001
Current cigarette smoker		
No	1	
Yes	3.2 (1.7–12.1)	0.001
Current residential status <sup>a</sup>		
With family	1	
Alone or sharing with friends	3.6 (1.5–12.9)	0.04

<sup>a</sup>“Dormitory” category was excluded as there was no significant difference from “with family” category in logistic regression analysis.

CI = confidence interval.
