

Table 2 Comparison between level of Chlamydia trachomatis and rubella antibodies among women with full-term deliveries and women with abortion

Variable	Antibody levels ^a						Significance
	Women with full-term deliveries (n = 198)			Women with abortion (n = 79)			
	Mean	SD	Range	Mean	SD	Range	
Chlamydia	0.93	0.78	0.00–3.10	1.31	0.48	0.24–2.59	t = 2.8; P < 0.05
Rubella	1.19	0.80	0.05–3.10	1.02	0.84	0.20–3.00	t = 1.15; P > 0.05

^aAbsolute optical density values.

SD = standard deviation.
