

Table 2 Distribution of correlation coefficients between measured parameters by parity

Parameter	Primiparous women (<i>n</i> = 442)	Multiparous women (<i>n</i> = 353)	All women (<i>n</i> = 795)
Fundal height	0.60	0.54	0.58
Abdominal girth	0.44	0.29	0.40
Fundal height × abdominal girth	0.59	0.48	0.56

All P values < 0.001.
