

Table 1 Quantitative antibody titre before and after the second MMR vaccination before school entry

Laboratory assay	Measles response		P-value
	Before (n = 138)	After (n = 124)	
<i>ELISA</i>			
Optical density, mean (SD)	0.916 (0.482)	1.278 (0.469)	0.0001
<i>Antibody titre mIU/mL</i>			
Geometric mean	2205	4723	0.0001
Median	2510	5392	
Minimum	2	2	
Maximum	13342	29857	

MMR = measles, mumps and rubella; ELISA = enzyme-linked immunosorbent assay; SD = standard deviation.
