

Table 2 Multivariate logistic regression analysis of factors associated with coeliac disease seropositivity among patients with autoimmune hypothyroidism

Variable	OR	95% CI	P-value
Anaemia			0.04
Yes	3.7	0.63–16.9	
No ^a	1		
Vitamin B12			0.01
Deficiency	3.0	0.91–17.1	
Normal ^a	1		
Other autoimmune diseases			0.04
Present	3.1	0.47–30.7	
Absent ^a	1		
Age years			0.02
20–40 ^a	1		
> 40	4.3	1.04–28.1	

Each variable in the table was adjusted for all other variables in the table.

^aReference group.

OR = odds ratio; CI = confidence interval.
