

Table 2 Rating of attitudes according to demographic characteristics of the study sample

Demographic characteristic	Good attitudes ¹		Poor attitudes ¹		P-value
	No.	%	No.	%	
Sex					0.550
Male	34	51.5	32	48.5	
Female	32	46.4	37	53.6	
Age (years)					0.004
26–35	30	40.5	44	59.5	
36–45	14	42.4	19	57.6	
46–55	18	75.0	6	25.0	
≥ 56	4	100.0	0	0.0	
Education²					0.001
Degree	63	86.3	10	13.7	
Diploma	3	4.8	59	95.2	
Profession					0.001
Doctor	59	84.3	11	15.7	
Other professions ³	7	10.8	58	89.2	
Total	66	48.9	69	51.1	

¹Good attitudes: respondent score ≥ 6 out of 10 questions; poor attitudes: respondent score < 6 out of 10.

²Degree: respondents working in PHC with 3–4 years of tertiary education; Diploma: respondents working in PHC with 1–2 years post high-school education.

³Other professions were: nurses, laboratory technicians and primary health care (PHC) managers.
