

Table 1 Demographic characteristics of the study sample

Variable	Men (n = 62)	Women (n = 83)	Test	P-value
Years of age [mean (SD)]	36.4 (12.0)	28.3 (13.9)	$t = 3.72$	< 0.0001
Years of education [mean (SD)]	9.0 (4.1)	8.7 (4.2)	$t = 0.44$	NS
Days after disaster [mean (SD)]	43.3 (3.2)	42.9 (3.0)	$t = 0.80$	NS
Married /single (No.)	48/13	49/34	$\chi^2 = 6.18$	0.019

NS = not significant.
