0.6

ESTIMATED NATIONAL DROWNING DEATH RATE (PER 100 000)*

66

ESTIMATED NATIONAL DROWNING DEATH COUNT*

REGIONAL AVERAGE RATE (PER 100 000) 4.5

GLOBAL AVERAGE RATE (PER 100 000) 3.8

* WHO Global Health Estimate data, 2021

GOVERNANCE AND COORDINATION

NATIONAL FOCAL POINT FOR DROWNING PREVENTION ✓

NATIONAL DROWNING PREVENTION STRATEGY ✓

NATIONAL COORDINATION MECHANISM FOR DROWNING PREVENTION ✓

GOVERNMENT SECTORS CONTRIBUTING TO DROWNING PREVENTION:

Health | Police | Transport | Maritime Safety | Disaster Risk Reduction | Environment / Climate | Education | Tourism | Military / Coastguard | Ministry of local governance and municipalities | Ministry of Water and Irrigation | Ministry of Agriculture

NON-GOVERNMENT SECTORS CONTRIBUTING TO DROWNING PREVENTION:

Lifesaving organizations | Swimming associations | Research organizations | Fisher associations

POLICY AND LEGISLATION

Policy for disaster risk management which specifies drowning	NATIONAL
Legislation for fencing around private swimming pools	NATIONAL
Legislation for fencing around public swimming pools	NO
Legislation to ensure safety of domestic passenger water transport	NATIONAL
Legislation mandating lifejacket use when boating	NATIONAL
Regulations preventing alcohol consumption and/or sales near public waterbodies	NATIONAL

RATE OF DROWNING DEATHS OVER TIME

* Rate = age standardized death rate

POPULATION 11 148 277 | INCOME GROUP Lower middle income | GROSS NATIONAL INCOME PER CAPITA 4 460

DATA

DROWNING DEATHS CAPTURED IN VITAL REGISTRY SYSTEM MOST DETAILED NATIONAL DATA SOURCE CAPTURES: ✓

Age of victim ✓ Sex of victim ✓

Type of water body ✓ Activity at time of drowning ✓

INTERVENTIONS

Daycare services provided for pre-school children	NO
Swimming and water safety included in school curriculum	NO
Barriers installed to limit access to water	YES
Lifeguards present at public swimming venues	YES
Rescue and resuscitation training programmes available	YES
Operational search and rescue service present	YES
Free weather alerts available	YES
Operational disaster warning systems	YES
Community resilience for managing flood risk exists	YES
Community disaster resilience programs exist which specify drowning	YES

AWARENESS RAISING

Drowning prevention mass media campaigns	YES
Campaigns on child safety	YES
Campaigns highlighting the dangers of consuming alcohol before or during aquatic activities	NO

SHARE OF DROWNING DEATHS BY AGE GROUP
