

# Infection prevention and control for COVID-19 vaccination

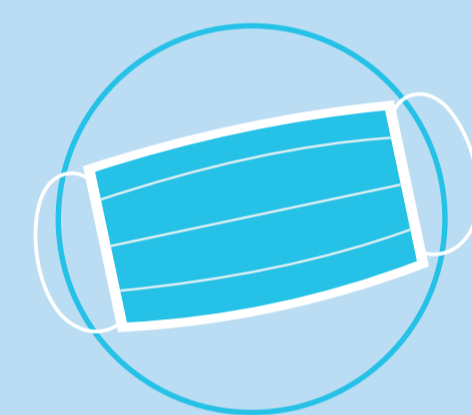

Ensure vaccine recipients at waiting areas **clean hands, wear a mask and maintain physical distance of at least 1 metre**

**Screen persons** on arrival at vaccination site for fever and respiratory symptoms

**Wear a medical mask** throughout your shift (change when soiled, wet or damaged)

**Wear gloves** only when there is skin breakdown or body fluids are anticipated

**Clean your hands** using alcohol-based handrub between each recipient

**Use new sterile syringe and needle** for each recipient

**Discard used syringes** into a sealed sharps container
