WHO recommendations:

- Increase Member States' acceptance of patients from the Gaza Strip.
- Restore the medical corridor to the West Bank, including East Jerusalem.
- Increase corridors for medical evacuation through Egypt and Jordan.
- Scale-up of medical evacuations up to 50 patients per day plus companions, in line with the previous ceasefire.

Pathway for patient evacuation for medical treatment outside of Gaza

Severely ill or injured patients needing lifesaving, specialized care unavailable in Gaza can be medically evacuated. The process is supported by the World Health Organization (WHO), in coordination with various stakeholders and health partners.

PRCS field hospital | 5 Nov 25

Before October 2023 between 50-100 patients were exiting the Gaza Strip daily for medical treatment.
