Disease surveillance & Response

cVDPV2 outbreak response:

In addition to mOPV2 campaigns, IPV vaccination has reached children aged 2-23 months in infected and high risk areas. Strengthening routine immunization in health centres and mobile team is still ongoing. In addition, to collecting stool samples from contacts, primary immunodeficient children, and healthy children recently displaced from Deir-ez-Zour and Ar-Raqqa.

MoH with support from WHO have successfully established a new environmental surveillance laboratory in Damascus.

Polio Campaign:

More than 2.1 million children under five years old were vaccinated with bOPV in the National Immunization Days that took place between 8-12 October 2017. In addition a sub national polio campaign which targeted HTRs and besieged areas was conducted from 19 to 23 November 2017.
