

Country fact sheets

The World Health Organization (WHO) and the Centers for Disease Control and Prevention (CDC), Atlanta, developed the Global School Personnel Survey to track tobacco use among school personnel across countries using a common methodology and core questionnaire. Information from the Survey is compiled within the participating country by a Research Coordinator nominated by the Ministry of Health, and technically reviewed by WHO and CDC. The content has not otherwise been edited by WHO or CDC.

All reasonable precautions have been taken by the World Health Organization to verify the information contained in this publication. West Bank - UNRWA Global School Personnel Survey (GSPS)

FACT SHEET

The West Bank - UNRWA GSPS includes data on prevalence of cigarette and other tobacco use as well as information on attitudes on school policy toward tobacco use, access to teaching materials and training, and attitudes toward tobacco use. These factors are components West Bank - UNRWA could include in a comprehensive tobacco control program.

The West Bank - UNRWA GSPS was a school-based survey of school personnel from the schools that participated in the 2008 West Bank - UNRWA GYTS.

The GYTS was conducted in schools having students in grades 7, 8, and 9. For the GYTS, a two-stage cluster sample design was used to produce representative data for all of West Bank - UNRWA. At the first stage, schools were selected with probability proportional to enrollment size. At the second stage, classes were randomly selected and all students in selected classes were eligible to participate. The school response rate was 100.0%. For the GSPS, 100.0% of the school personnel completed the survey, for a total of 473 teachers & administrators.

Prevalence of Tobacco Use among School Personnel

36.4% ever smoked cigarettes (Admin = 38.7%, Teachers = 36.2%)

32.1% ever smoked shisha (Admin = 18.9%, Teachers = 32.6%)

27.7% currently use any tobacco product (Admin = 28.0%, Teachers = 27.6%)

21.9% currently smoke cigarettes (Admin = 28.0%, Teachers = 21.7%)

14.6% currently use other tobacco products (Admin = 14.2%, Teachers = 14.6%)

16.2% smoked on school property in the past year (Admin = 18.3%, Teachers = 16.1%)

School Policies Prohibiting Tobacco Use

98.0% agree schools should have policy prohibiting tobacco use among students

83.1% report school has policy prohibiting tobacco use among students

88.5% agree schools should have a policy prohibiting tobacco use among personnel

53.4% report school has a policy prohibiting tobacco use among personnel

67.5% report school enforces policies on tobacco use for students and personnel

Access to Teaching Materials and Training

66.5% schools include tobacco use prevention in school curriculum

84.6% think teachers need specific training to help students avoid tobacco use

59.1% teachers have access to teaching materials on tobacco use

14.5% teachers had ever received training on youth tobacco use prevention

51.2% schools use non-classroom programs to teach youth tobacco use prevention

Attitudes

89.8% think smoking should be banned from public places

96.1% think smoke from others is harmful to them

93.2% think teacher tobacco use influences youth tobacco use

88.7% think tobacco product advertising should be completely banned

71.5% think the price of tobacco products should be increased

90.1% think the tobacco industry deliberately encourages youth to use tobacco

Highlights

- Over one-third of the school personnel have ever smoked cigarettes; 21.9% currently smoke cigarettes and 32.1% have ever smoked shisha.
- Eight in 10 schools have a policy prohibiting tobacco use among students; five in 10 have a policy for personnel; more than two-thirds enforce their polices.
- More than three in five of the schools include tobacco use prevention in school curriculum.
- Nearly six in 10 teachers have access to teaching materials on tobacco use.
- 14.5% of the teachers have ever received training on youth tobacco use prevention.
- Half the schools use nonclassroom programs to teach youth tobacco use prevention.
- Nine in 10 think smoking should be banned from public places.
- More than nine in 10 think teacher tobacco use influences youth tobacco use.
