

GYTS Objectives

The Global Youth Tobacco Survey (GYTS), a component of the Global Tobacco Surveillance System (GTSS), is a global standard for systematically monitoring youth tobacco use (smoking and smokeless) and tracking key tobacco control indicators.

GYTS is a cross-sectional, nationally representative school-based survey of students in grades associated with ages 13 to 15 years. GYTS uses a standard core questionnaire, sample design, and data collection protocol. It assists countries in fulfilling their obligations under the World Health Organization (WHO) Framework Convention on Tobacco Control (FCTC) to generate comparable data within and across countries. WHO has developed MPOWER, a technical package of selected demand reduction measures contained in the WHO FCTC:

GYTS Methodology

GYTS uses a global standardized methodology that includes a two-stage sample design with schools selected with a probability proportional to enrollment size. The classes within selected schools are chosen randomly and all students in selected classes are eligible to participate in the survey. The survey uses a standard core questionnaire with a set of optional questions that countries can adapt to measure and track key tobacco control indicators. The questionnaire covers the following topics: tobacco use (smoking and smokeless), cessation, secondhand smoke (SHS), pro- and anti-tobacco media and advertising, access to and availability of tobacco products, and knowledge and attitudes regarding tobacco use. The questionnaire is self-administered; using scannable paper-based bubble sheets, it is anonymous to ensure confidentiality.

In the Islamic Republic of Iran, GYTS was conducted in 2016 by the Ministry of Health and Medical Education. The overall response rate was 94.4%. A total of 2,746 eligible students in 2nd and 3rd grades of secondary school and first grade of high school (grades 8-10) completed the survey, of which 2,087 were aged 13-15 years. Data are reported for students aged 13-15 years.

GYTS Highlights

TOBACCO USE

- 10.2% of students, 12.9% of boys, and 7.7% of girls currently used any tobacco products.
- 9.2% of students, 11.6% of boys, and 7.1% of girls currently smoked tobacco.
- 3.4% of students, 4.8% of boys, and 2.1% of girls currently smoked cigarettes.
- 11.2% of students, 14.3% of boys, and 8.5% of girls currently smoked shisha.
- 1.9% of students, 3.1% of boys, and 0.8% of girls currently used smokeless tobacco.

CESSATION

- More than 4 in 10 (41.4%) current tobacco smokers tried to stop smoking in the past 12 months.
- More than 5 in 10 (53.5%) current tobacco smokers wanted to stop smoking now.

SECONDHAND SMOKE

- 24.2% of students were exposed to tobacco smoke at home.
- 38.4% of students were exposed to tobacco smoke inside enclosed public places.

ACCESS & AVAILABILITY

- 60.5% of current cigarette smokers bought cigarettes from a shop, supermarket, street vendor, or newspaper booth.
- Among current cigarette smokers who tried to buy cigarettes, 68.5% were not prevented from buying them because of their age.

MEDIA

- Almost 7 in 10 (69.9%) students noticed anti-tobacco messages in the media.
- More than 4 in 10 (40.2%) students noticed tobacco advertisements or promotions when visiting points of sale.
- More than 1 in 10 (11.8%) students had something with a tobacco brand logo on it.

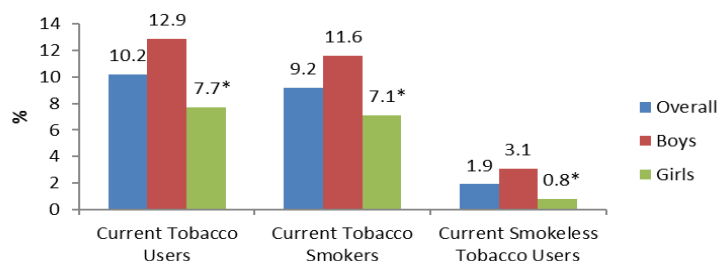

KNOWLEDGE & ATTITUDES

- 76.7% of students definitely thought other people's tobacco smoking is harmful to them.
- 78.2% of students favored prohibiting smoking inside enclosed public places.

TOBACCO USE

SMOKED TOBACCO	OVERALL (%)	BOYS (%)	GIRLS (%)
Current tobacco smokers ¹	9.2	11.6	7.1*
Current cigarette smokers ²	3.4	4.8	2.1*
Frequent cigarette smokers ³	0.8	1.4	0.2*
Current smokers of other tobacco ⁴	7.8	9.7	6.1*
Current shisha smokers ⁵	11.2	14.3	8.5*
Frequent shisha smokers ⁶	1.2	1.7	0.8
Ever tobacco smokers ⁷	29.5	35.4	24.1*
Ever cigarette smokers ⁸	14.2	16.8	11.8*
Ever smokers of other tobacco ⁹	24.2	28.5	20.2*
Ever shisha smokers ¹⁰	35.8	42.1	30.2*
SMOKELESS TOBACCO			
Current smokeless tobacco users ¹¹	1.9	3.1	0.8*
Ever smokeless tobacco users ¹²	2.6	4.1	1.2*
ANY TOBACCO USE (smoked and/or smokeless)			
Current tobacco users ¹³	10.2	12.9	7.7*
Ever tobacco users ¹⁴	30.4	36.7	24.6*
SUSCEPTIBILITY			
Never tobacco users susceptible to tobacco use in the future ¹⁵	10.1	7.5	12.1*
Never tobacco smokers who thought they might enjoy smoking a cigarette ¹⁶	6.4	5.2	7.3

**Current Tobacco Users
Among Students Aged 13-15 Years --
Islamic Republic of Iran, GYTS 2016**

CESSATION

	OVERALL (%)	BOYS (%)	GIRLS (%)
Current tobacco smokers who tried to stop smoking in the past 12 months	41.4	44.4	36.9
Current tobacco smokers who wanted to stop smoking now	53.5	62.7	--
Current tobacco smokers who thought they would be able to stop smoking if they wanted to	74.3	73.4	75.7
