

Sawq GYTS Objectives

The Global Youth Tobacco Survey (GYTS), a component of the Global Tobacco Surveillance System (GTSS), is a global standard for systematically monitoring youth tobacco use (smoking and smokeless) and tracking key tobacco control indicators.

GYTS is a nationally representative school-based survey of students in grades associated with 13 to 15 years of age and is designed to produce cross-sectional estimates for each country. GYTS uses a standard core questionnaire, sample design, and data collection protocol. It assists countries in fulfilling their obligations under the World Health Organization (WHO) Framework Convention on Tobacco Control (FCTC) to generate comparable data within and across countries. WHO has developed MPOWER, a package of selected demand reduction measures contained in the WHO FCTC:

GYTS Methodology

GYTS uses a global standardized methodology that includes a two-stage sample design with schools selected with a probability proportional to enrollment size. The classes within selected schools are chosen randomly and all students in selected classes are eligible to participate in the survey. The survey uses a standard core questionnaire with a set of optional questions that permits adaptation to meet the needs of the country on tobacco use and key tobacco control indicators. The questionnaire consists of the following topics: tobacco use (smoking and smokeless), cessation, secondhand smoke (SHS), pro- and anti-tobacco media and advertising, access and availability to obtain tobacco products, and knowledge and attitudes regarding tobacco. The questionnaire is self-administered; using scannable paper-based bubble sheets, it is anonymous to ensure confidentiality.

In UNRWA Jordan, GYTS was conducted in 2014 by UNRWA Headquarters, under the coordination of the Health and Education Departments. A total of 1,373 eligible students in grades 7-9 completed the survey, of which 1,168 were aged 13-15 years. The overall response rate of all students surveyed was 92.1%.

World Health Organization

GYTS Highlights

TOBACCO USE

- 24.2% overall, 31.6% of boys, and 15.8% of girls currently used any tobacco products.
- 22.6% overall, 29.1% of boys, and 15.0% of girls currently smoked tobacco.
- 13.6% overall, 19.3% of boys, and 7.1% of girls currently smoked cigarettes.
- 3.1% overall, 5.0% of boys, and 1.1% of girls currently used smokeless tobacco.
- 17.4% overall, 27.4% of boys, and 5.6% of girls currently smoked electronic cigarettes.

asDX

CESSATION

- More than 6 in 10 current smokers tried to stop smoking in the past 12 months.
- Almost 6 in 10 current smokers want to stop smoking now.

SECONDHAND SMOKE

- 67.4% of students were exposed to tobacco smoke at home.
- 65.5% of students were exposed to tobacco smoke inside enclosed public places.

ACCESS & AVAILABILITY

- 57.6% of current cigarette smokers obtained cigarettes by buying them from a store, shop, street vendor, or kiosk.
- Among current cigarette smokers who bought cigarettes, 74.0% were not prevented from buying them because of their age.

MEDIA

- Almost 6 in 10 students noticed anti-tobacco messages in the media.
- Almost 5 in 10 students noticed tobacco advertisements or promotions when visiting points of sale.
- More than 1 in 10 students own something with a tobacco brand logo on it.

KNOWLEDGE & ATTITUDES

- 53.8% of students definitely thought other people's tobacco smoking is harmful to them.
- 71.6% of students favor banning smoking inside enclosed public places.

TOBACCO USE

SMOKED TOBACCO	OVERALL (%)	BOYS (%)	GIRLS (%)
Current tobacco smokers ¹	22.6	29.1	15.0
Current cigarette smokers ²	13.6	19.3	7.1
Frequent cigarette smokers ³	3.5	6.5	0.1
Current smokers of other tobacco ⁴	15.3	19.7	10.2
Ever tobacco smokers ⁵	46.2	55.9	35.0
Ever cigarette smokers ⁶	35.3	44.7	24.6
Ever smokers of other tobacco ⁷	30.0	36.2	23.2

SMOKELESS TOBACCO

Current smokeless tobacco users ⁸	3.1	5.0	1.1
Ever smokeless tobacco users ⁹	8.4	11.5	4.6

TOBACCO USE (smoked and/or smokeless)

Current tobacco users ¹⁰	24.2	31.6	15.8
Ever tobacco users ¹¹	49.3	59.4	37.8

SUSCEPTIBILITY

Never tobacco users susceptible to tobacco use in the future ¹²	16.2	20.6	12.9
Never smokers who thought they might enjoy smoking a cigarette ¹³	9.7	13.0	7.3

CESSATION

	OVERALL (%)	BOYS (%)	GIRLS (%)
Current smokers who tried to stop smoking in the past 12 months	63.9	66.4	--
Current smokers who want to stop smoking now	57.1	60.1	--
Current smokers who thought they would be able to stop smoking if they wanted to	80.3	78.6	--
Current smokers who have ever received help/advice from a program or professional to stop smoking	25.1	27.8	17.8

SECONDHAND SMOKE

	OVERALL (%)	BOYS (%)	GIRLS (%)
Exposure to tobacco smoke at home ^{††}	67.4	65.4	70.0
Exposure to tobacco smoke inside any enclosed public place ^{††}	65.5	70.7	59.6
Exposure to tobacco smoke at any outdoor public place ^{††}	61.1	66.2	55.0
Students who saw anyone smoking inside the school building or outside on school property [†]	54.1	66.0	40.5

ACCESS & AVAILABILITY

	OVERALL (%)	BOYS (%)	GIRLS (%)
Current cigarette smokers who obtained cigarettes by buying them from a store, shop, street vendor, or kiosk ¹⁴	57.6	68.3	--
Current cigarette smokers who were not prevented from buying cigarettes because of their age ¹⁵	74.0	76.3	--
Current cigarette smokers who bought cigarettes as individual sticks ¹⁶	64.3	68.7	--

MEDIA

TOBACCO INDUSTRY ADVERTISING	OVERALL (%)	BOYS (%)	GIRLS (%)
Noticing tobacco advertisements or promotions at points of sale ¹⁷	46.2	49.8	41.6
Students who saw anyone using tobacco on television, videos, or movies ¹⁸	75.5	71.3	79.9
