

Screened Children 2023

836,706

Key Figures Oct 2023

89,987

Screened Children (0 - 59 months) in Oct

20%

Screened Children (Under 6 months)

27%

GAM (WHZ) (6 - 59 months)

44%

Stunting (6 - 59 months)

19%

Anemia (6 - 59 months)

49%

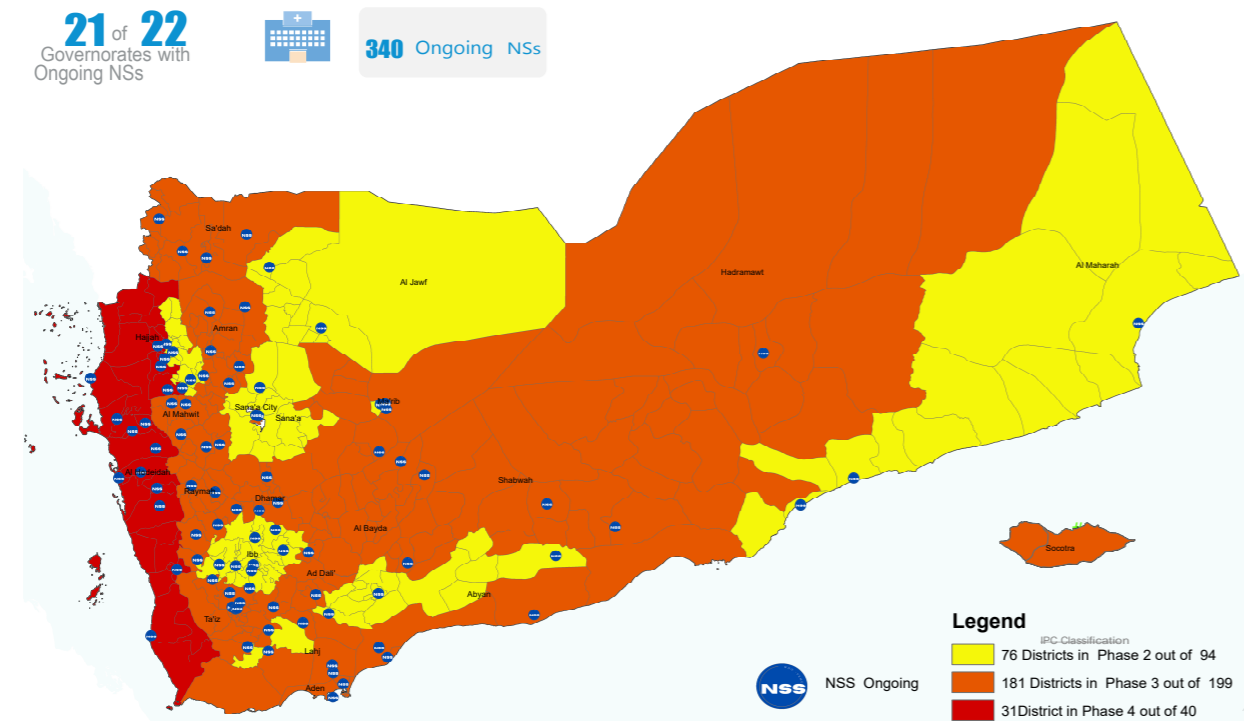

Underweight (0 - 59 months)

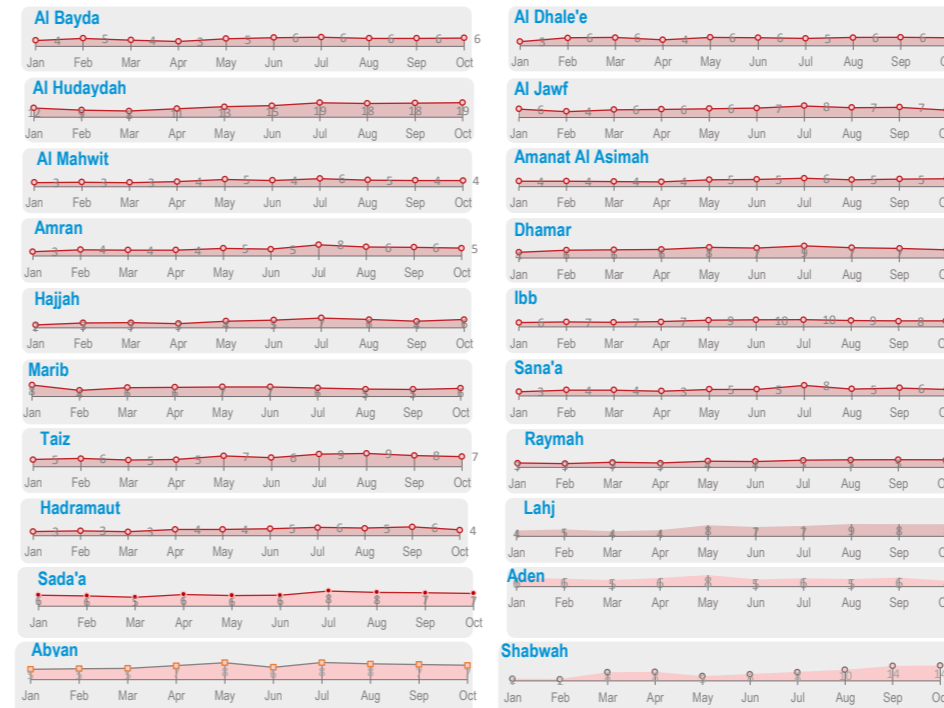

15%

Exclusive Breastfeeding (0 - 6 months)

Geographical Presence of Nutrition Sentinel Sites

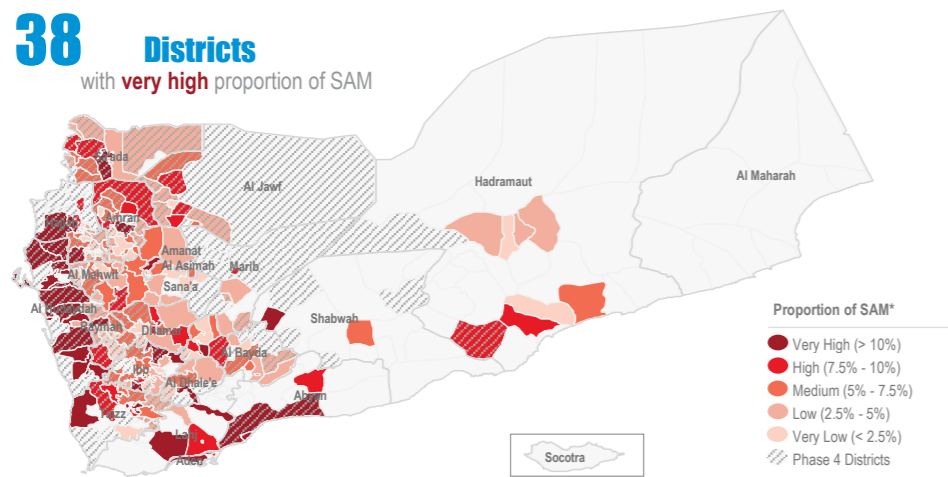

Proportion † of Severe Acute Malnutrition (SAM) Monthly Trend Reporting per Gov

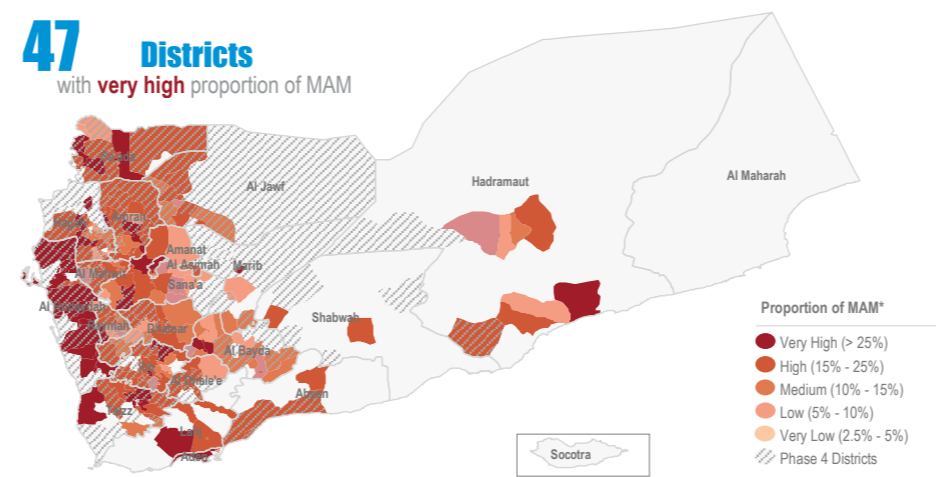

Screened Children Oct

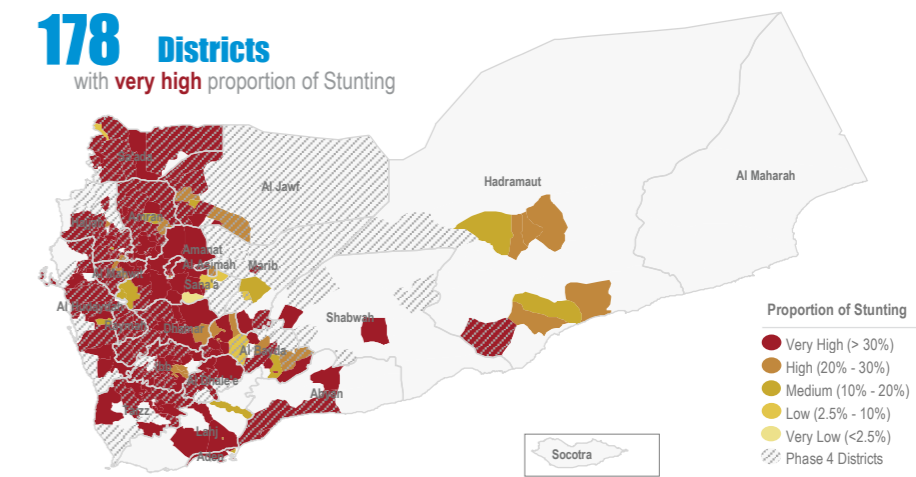

Proportion † of Severe Acute Malnutrition (SAM)* Oct

Proportion † of Moderate Acute Malnutrition (MAM)* Oct

Proportion † of Stunting Oct

Objectives of the Yemen Nutrition Surveillance System

Monitor children nutritional status, early detection of malnutrition and case referral. Share information and trigger alert verification..

Methodology

Nutritional assessment in NSS is normally performed through the measurement of child's weigh,height/length, MUAC, age,hemoglobin level, breastfeeding status and oedema.It is Facility-based surveillance system, established mainly in district hospitals across the country.

The system provides proportion of children under five years found suffering from any forms of malnutrition, out of the total children screened. It is not a formal survey using sampling methods to produce representative results.

The results only reflect the status of children who have attended the health facility in the month under review.The system tracks Global core nutrition indicators: Stunting, Wasting, Exclusive breastfeeding and Anemia.This bulletin is based on reports received by the health facility surveillance MoPHP teams*.

WHO supports the MoPHP and constantly works to expand coverage and improve data quality, funded by World Bank.

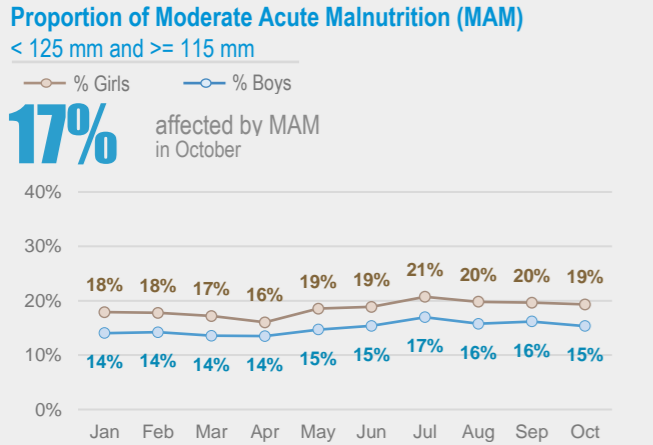

Additional screening of 71,924 children via mobile teams and pediatric wards integrated with TFC to ensure assessment of children in remote areas is conducted with ensuring to refer children with malnutrition forms to the nearest nutrition services to continue receiving treatment and follow up

Summary for Nutrition Indicators Oct 2023 in Reporting Gov

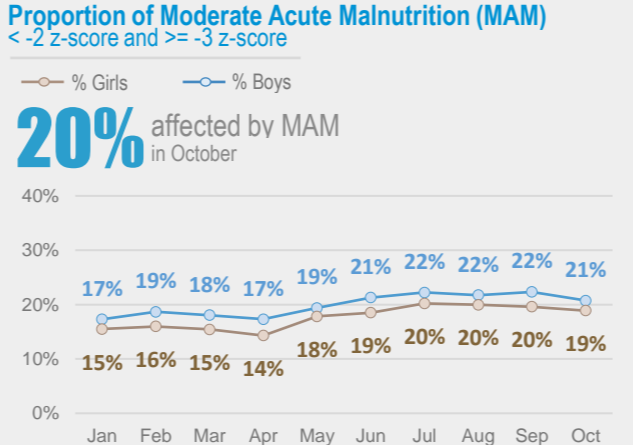

Governorate	# of Screened Children (0 - 5)	# of Screened Children (6 - 59)	Proportion of GAM (0 - 5)	Acute Malnutrition by Z- Score				Acute Malnutrition by MUAC				Underweight		Stunting		Exclusive Breastfeeding		Anemia		Oedema	
				# of MAM	Proportion of MAM	# of SAM	Proportion of SAM	# of MAM	Proportion of MAM	# of SAM	Proportion of SAM	# of Underweight	Proportion of Under weight	# of Stunting	Proportion of Stunting	# of EBF	Proportion of EBF (Yes)	# of Anemia	Proportion of Anemia	# of Oedema	Proportion of Oedema
