

## Key Figures - From January to September

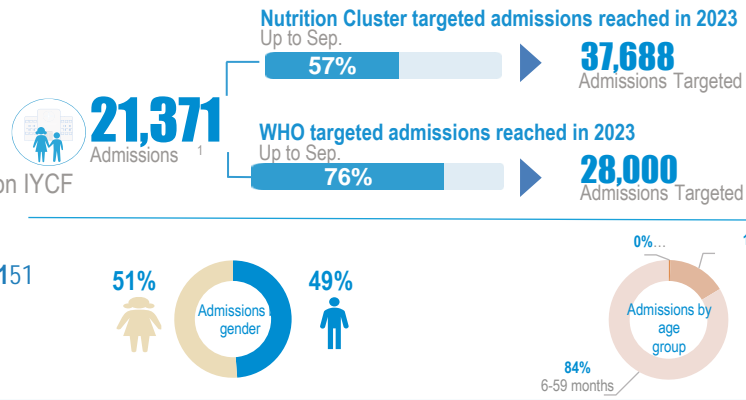

## Service Utilization January-September

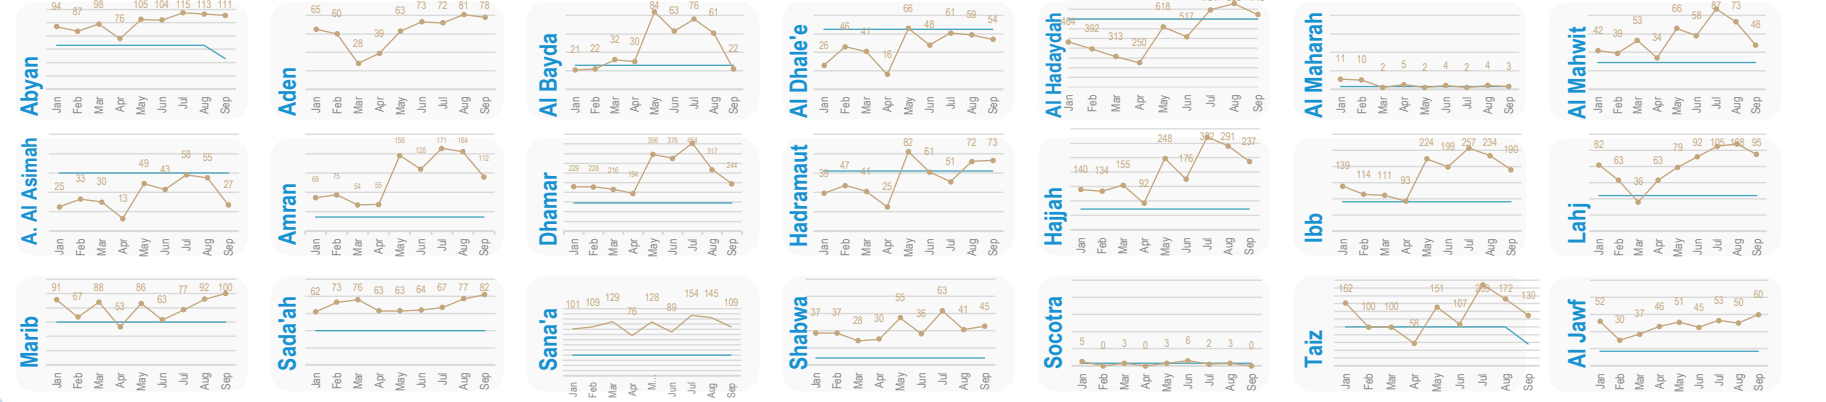

From January to Sep 21,372 children have received life-saving services in WHO-supported TFCs, of which 3,388 (16%) are children under 6 months.

The quality of service is evidenced by the recovery (96%) and death (1%) rates. Each caregiver (21,372) in total benefits from at least 5 counselling sessions per hospital stay on IYCF best practices. This might contribute to the observed decrease in relapse rate (2%) in Sep

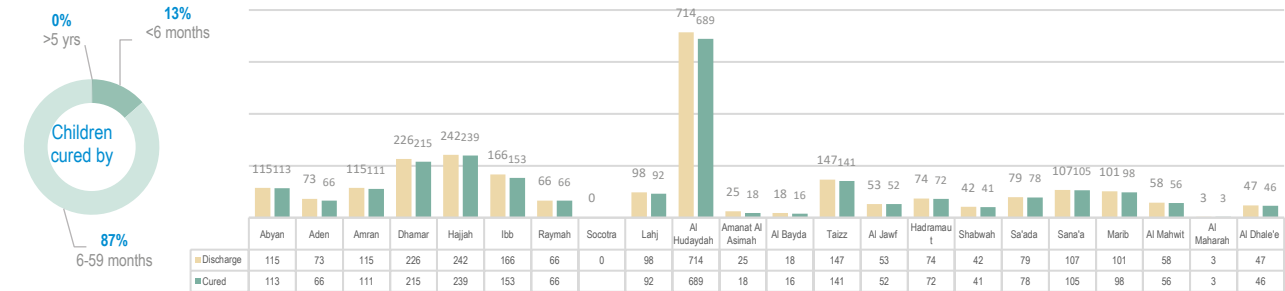

By ensuring the care for most critical cases in pediatric wards in referral hospitals with TFCs, 32,151 children were admitted in From Jan to Sep r in these referral hospitals for intensive care.
