

March 2025

Strategic cooperation

Under the supervision of WHO's Health Emergencies Programme Team Lead Dr Jamshed Tanoli, a delegation from WHO Country Office conducted a monitoring visit to the Afghan-Japan National Infectious Disease Hospital in Kabul. With support from JICA, WHO has upgraded the facility with a new radiology unit, including a CT scanner, two ultrasound machines, and a 100kW solar power backup system to ensure uninterrupted service delivery. "With JICA's support, WHO is enhancing Afghanistan's public health infrastructure," emphasized Dr Tanoli.
