

Information on IMCI coverage up to mid-2005 has been updated for most countries implementing IMCI in the Region. Information on IMCI implementation in Palestine has also been added. Updated IMCI coverage data up to mid-2005 is available on this website for most countries implementing IMCI, namely: Djibouti, Egypt, Islamic Republic of Iran, Iraq, Jordan, Morocco, Pakistan, Palestine, Sudan, Syrian Arab Republic, Tunisia and Yemen. Updated information from Afghanistan and Oman is expected soon. Currently, information on IMCI coverage refers to indicators related to IMCI training coverage, presented by level (national, governorate/province, district and health facility), and for selected countries also to the under-five population.
