

### [Health system in Yemen crumbles as millions risk malnutrition and disease](#)

23 February 2017 – Since the escalation of the conflict in March 2015, health facilities across Yemen have reported more than 7600 deaths and close to 42 000 people injured. The country's health system has been another victim of the conflict. The budget allocated to health authorities has been drastically reduced, leaving health facilities without funds for operational costs and health care workers without regular salaries since September 2016.
