

16 August 2023 – The World Health Organization (WHO), in collaboration with the Ministry of Health and Medical Education of the Islamic Republic of Iran, held training-of-trainers courses on patient safety-friendly frameworks to develop the capacity of health care professionals to implement these frameworks in the country.

Dr Jaffar Hussain, WHO Representative in the Islamic Republic of Iran, inaugurated each course in the presence of officials from the Ministry and the National Institute for Health Research.
