

27 November 2022 – The Ministry of Health and World Health Organization in Jordan held an event to celebrate the conclusion of the Korea International Cooperation Agency (KOICA) fund on “Strengthening Jordan surveillance systems through strengthening national laboratory capacities and the workforce for surveillance of antimicrobial resistance (AMR)”. The event was attended by national stakeholders and partners who came together to recognize the joint achievements in combating AMR in Jordan.

Acknowledging efforts undertaken so far in combating AMR in Jordan and KOICA’s generous support, H.E. Minister of Health, H.E. Profesor Firas Al-Hawari said, “With WHO’s technical support and thanks to KOICA’s funding, national surveillance data is contributing to developing evidence-based policy for the National Antimicrobial Stewardship Programme”.

WHO Representative in Jordan Dr Jamela Al-Raiby said, “WHO is grateful for the generous support provided by KOICA and proud by what has been achieved in the battle against AMR.”
