

The WHO has organized a training course on rehabilitation skills for people with mental disabilities at Alzai hospital from 12 to 25 May 2013. The workshop targeted a total of 28 social workers from Tripoli, Benghazi, Sebha and Misurata.

This training activity was designed to enable social workers to gain the skills required to deliver rehabilitation and recovery services for people with mental disabilities at day care units. The training programme included theoretical sessions and on the job training activities.
