

21 February, Tripoli, Libya -- With support from Office of United States Foreign Disaster Assistance, WHO established and deployed 4 emergency medical mobile teams to Benghazi, Ejdabia, Tarhouna, Tawargha and Bani-Waleid to respond to the pressing needs of displaced families, undocumented migrants and vulnerable host communities.

World Health Organization (WHO) has been working to help countries improve their health systems and provide access to essential medicines and vaccines. **Related link**
