Libya is a party to	International Health	Regulations 2	005 (IHR). S	Several a	activities h	nave bee	n
done to facilitate th	ne implementation of	f the regulation	ns in the cou	intry incl	uding:		

identification of a national official responsible for IHR

coordination and collaboration with different ministries and organizations to implement the IHR

training courses and workshops for health-care providers, including quarantine staff, to raise competence

assessment of capacity and surveillance preparedness at different sites in order to comply the regulations.

An action plan has been prepared for implementation of surveillance and response in governorates as well as a contingency plan. Modification of some national regulations and legal procedures has been introduced in order to comply with IHR
