

Wednesday, 17 March 2021, A WHO team headed by Dr. Jean Jabbour, WHO Representative (WR) to Oman visited AISibl and Al Hamam healthy village in Wilayat Dama Wa At Taiyin, North Sharqiyah Governorate. The aim of the visit was to connect with the community and to develop a comprehensive knowledge and understanding of the healthy village system in the country.

Upon arrival WR was received by HE the Wali (governor) of Dama and AlTaeyeen Wilayat and the Director General of Health Services- in the Governorate. The program started with a welcoming speech delivered by the chairperson of the village development committee. This was followed by a presentation explaining the process and development of the initiative in the village, focusing on the main findings and indicators from the health survey and highlighting efforts made by local community. A video-show highlighted the main planned and implemented projects in the two villages, to include:

- Conducting an assessment survey.
- Tiling of walking pathway.
- Establishing of a Community Information Centre.
- Constructing of mountain road to stimulate tourism.
- Renovating of the old fort and the football playground.
- Building a Quraan School

The WHO representative is being presented with a small gift or token by the Sultanate of Oman
