WHO EMRO is committed to providing the best possible health services to the people of the region. We are working to improve the health of the region and the lives of its people.

Our vision is a region of good health, well-being, and equity. We are working to achieve this vision through a range of activities, including promoting health, preventing disease, and protecting people from health risks.

We have a strong track record of leadership in the region, and we are proud to have achieved many milestones. In 2020, we celebrated our 70th anniversary, and we are looking forward to continuing our work for the next 70 years.

We are committed to working in partnership with our member states and other stakeholders to address the health needs of the region. We are working to build a strong and resilient health system for the region.

We are committed to providing the best possible health services to the people of the region. We are working to improve the health of the region and the lives of its people. We are committed to working in partnership with our member states and other stakeholders to address the health needs of the region.
