

October 2019 – A one-day workshop was held in the WHO Regional Office, in collaboration with the WHO country office and representatives of potential collaborating centres in Egypt, including various academic and research institutions and representatives of various departments from the Ministry of Health and Population.

The workshop introduced participants to the rules and policies regulating (re)designation of WHO collaborating centres and methods of streamlining collaboration with WHO's programme of work, outlined in the Eastern Mediterranean Region's Vision 2023.
