

23 January 2023 – At hospitals and health facilities throughout Yemen, the World Health Organization (WHO) is partnering with the King Salman Humanitarian Aid and Relief centre (KSrelief) to provide essential life-saving medicines, supplies and training for ensuring the survival of mothers and newborns.

Together with KSrelief, WHO has supported the Ras al-Ara Health Centre with reproductive health kits containing essential medical supplies, medicines and reusable instruments for its maternal health services that are provided free of charge – from mothers' early pregnancy to infant delivery.
