

25 October 2017 – The World Health Organization (WHO) country office in Libya delivered 20 000 dialysis units to the Ministry Of Health of Libya on 25 October 2017. The dialysis units have been procured from Belgium with financial resources provided by the Ministry of Health of Libya, in addition to 300 000 € provided by the Italian Agency for Development Cooperation to cover the shipment and freight cost.

These supplies will cover the need of all dialysis centres and patients for 3 months and are part of the shipments managed by the WHO logistical support unit. The Ministry of Health will be responsible for distribution of the units on the dialysis centres and hospitals all over Libya.
