

[Global action plan for the prevention and control of NCDs](#)

Publication date: 2013

The WHO Global action plan for the prevention and control of noncommunicable diseases (NCDs) 2013–2020 (extended to 2030) is a continuation of the commitments made by world leaders in the United Nations Political Declaration on the Prevention and Control of NCDs. This declaration, outlined in resolution A/RES/66/2, acknowledges the primary responsibility of governments in addressing the challenges of NCDs and highlights the significance of international collaboration in supporting national efforts.

Working in partnership to prevent and control the 4 noncommunicable diseases – cardiovascular diseases, diabetes, cancers and chronic respiratory diseases and the 4 shared risk factors – tobacco use, physical inactivity, unhealthy diets and the harmful use of alcohol.

2008-2013 Action Plan for the Global Strategy for the Prevention and Control of Noncommunicable Diseases

[Action plan for the global strategy for the prevention and control of noncommunicable diseases \(2008–2013\)](#)

Publication date: 2008

This document is written primarily for the community of international development partners and those in government and civil society concerned with urgent action to address the rapidly increasing burden of noncommunicable diseases (NCDs) in low - and middle - income countries and its serious implications for poverty reduction and economic development. This document makes the case for urgent action between 2008-2013 which, when performed collectively in accordance with the Action plan for the Global strategy on NCDs, will tackle the growing public health burden imposed by NCDs.
